AMENDED IN SENATE APRIL 5, 2005

SENATE BILL

No. 361

Introduced by Senator Scott
(Principal coauthor: Senator Runner)
(Principal coauthor: Assembly Member Laird)

February 17, 2005

An act to amend and repeal Sections 84750 and 84760 of, and to add Sections 84750.5 and 84760.5 to, the Education Code, relating to community colleges, *and declaring the urgency thereof, to take effect immediately.*

LEGISLATIVE COUNSEL'S DIGEST

SB 361, as amended, Scott. Community colleges: funding.

Existing law establishes the California Community Colleges under the administration of the Board of Governors of the California Community Colleges. Existing law authorizes the establishment of community college districts under the administration of community college governing boards, and authorizes these districts to provide instruction at community college campuses throughout the state. Existing law establishes a system for the apportionment of state funding to community college districts. This system is generally based

on calculations related to the number of full-time equivalent students (FTES) in attendance at each district.

This bill would delete, as of October 1, 2006, the provision that establishes the current community college funding system for allocating state general apportionment revenues and the provision that governs the allocation of equalization funds to community college districts.

The bill would establish, as of October 1, 2006, a new community college funding system. The bill would require the board of governors to develop criteria and standards to effectuate this system in accordance with prescribed statewide minimum requirements. These statewide minimum requirements would include an acknowledgment of the need for community college districts to receive an annual allocation based on the number of colleges and comprehensive centers in the district, plus funding received based on the number of credit and noncredit FTES.

The bill would specify that, commencing with the 2006–07 fiscal year, the marginal amount of credit revenue allocated per credit FTES would be not less than \$4,367, as adjusted by subsequent cost-of-living adjustments funded through the annual Budget Act. The bill would further specify that, beginning in the 2006–07 fiscal year, noncredit instruction would be funded at a uniform rate of \$2,626 per FTES, adjusted for the change in cost-of-living provided in the annual Budget Act for subsequent fiscal years. The bill would specify that, beginning in the 2006–07 fiscal year, career development and college preparation would be funded at a rate of \$3,092 per FTES, as specified.

The bill would specify the calculations required to determine the minimum statewide requested increase in budgeted workload FTES.

The bill would specify the career development and college preparation courses and classes for which no credit is given, and which are offered in a sequence of courses leading to a certificate of completion, leading to improved employability or job placement opportunities, leading to a certificate of competency in a recognized career field by articulating with college-level coursework, completion of an associate of arts degree, or for transfer to a ~~four-year~~ 4-year degree program, that are eligible for funding under the bill.

The bill would declare that it is to take effect immediately as an urgency statute.

Vote: ~~majority~~^{2/3}. Appropriation: no. Fiscal committee: yes.
State-mandated local program: no.

The people of the State of California do enact as follows:

1 SECTION 1. Section 84750 of the Education Code is
2 amended to read:

3 84750. The board of governors, in accordance with the
4 statewide requirements contained in subdivisions (a) to (j),
5 inclusive, and in consultation with institutional representatives of
6 the California Community Colleges and statewide faculty and
7 staff organizations, so as to ensure their participation in the
8 development and review of policy proposals, shall develop
9 criteria and standards for the purposes of making the annual
10 budget request for the California Community Colleges to the
11 Governor and the Legislature, and for the purpose of allocating
12 the state general apportionment revenues.

13 In developing the criteria and standards, the board of governors
14 shall utilize and strongly consider the guidelines and work
15 products of the Task Force on Community College Financing as
16 established pursuant to Chapter 1465 of the Statutes of 1986, and
17 shall complete the development of these criteria and standards,
18 accompanied by the necessary procedures, processes, and
19 formulas for utilizing its criteria and standards, by March 1,
20 1990, and shall submit on or before that date a report on these
21 items to the Legislature and the Governor.

22 The board of governors shall develop the criteria and standards
23 within the following statewide minimum requirements:

24 (a) The calculations of each community college district's
25 revenue level for each fiscal year shall be based on the level of
26 general apportionment revenues (state and local) the district
27 received for the prior year plus any amount attributed to a deficit
28 of minimum workload growth, with revenue adjustments being
29 made for increases or decreases in workload, for program
30 improvement as authorized by this section or by any other
31 provision of law, for inflation, and for other purposes authorized
32 by law.

33 (b) (1) For credit instruction, the funding mechanism
34 developed pursuant to this section shall recognize the needs
35 among the major categories of operation of community colleges,

1 with categories established for instruction, instructional services
2 and libraries, student services, maintenance and operations, and
3 institutional support.

4 (2) The board of governors may propose to the Legislature, for
5 enactment by statute, other cost categories when adequate data
6 exist.

7 (3) Funding for noncredit classes shall be determined as
8 follows:

9 (A) The preliminary amount per noncredit full-time equivalent
10 student (FTES) for 1991–92 shall be equal to the comparable
11 amount for 1990–91 with increases corresponding to the
12 cost-of-living adjustment (COLA) specified in subdivision (e)
13 and corresponding to any program improvement provided to the
14 maintenance and operations category for 1991–92.

15 (B) Funds for maintenance and operations shall be included in
16 the funds derived under paragraph (4) of subdivision (c).

17 (C) Funds for institutional support will be derived as part of
18 the computation under paragraph (5) of subdivision (c).

19 (D) From the preliminary amount described in subparagraph
20 (A), a deduction shall be made corresponding to the amounts
21 derived in subparagraphs (B) and (C), and the remainder shall be
22 the funded amount per noncredit FTES for 1991–92.

23 (E) Changes in noncredit FTES shall result in adjustments to
24 revenues as follows:

25 (i) Increases in noncredit FTES shall result in an increase in
26 revenues in the year of the increase and at the average rate per
27 noncredit FTES.

28 (ii) Decreases in noncredit FTES shall result in a revenue
29 reduction in the year following the decrease and at the average
30 rate per noncredit FTES.

31 (iii) Districts shall be entitled to restore any reductions in
32 apportionment revenue due to decrease in noncredit FTES during
33 the three years following the initial year of decrease in noncredit
34 FTES if there is a subsequent increase in FTES.

35 (4) Except as otherwise provided by statute, current
36 categorical programs providing direct services to students,
37 including extended opportunity programs and services, and
38 disabled students programs and services, shall continue to be
39 funded separately through the annual Budget Act, and shall not
40 be assumed under budget formulas of program-based funding.

(5) District revenues shall be determined based on systemwide funding standards within the categories, and revenue adjustments shall occur based on distinct measures of workload applicable to each category.

(c) Workload measures applicable to each category shall be established with the following measures to be provided:

(1) For credit instruction, the workload measure shall be the credit FTES. Changes in credit FTES shall result in adjustments in revenues as follows:

(A) Increases in FTES shall result in an increase in revenues in the year of the increase and at the statewide average per FTES.

(B) Decreases in FTES shall result in a revenue reduction in the year following the decrease and at the district's average FTES.

(C) Districts shall be entitled to restore any reductions in apportionment revenue due to decrease in FTES during the three years following the initial year of decrease in FTES if there is a subsequent increase in FTES.

(2) For instructional services and libraries, the workload measure shall be the credit FTES. Changes in credit FTES with respect to instructional services and libraries shall result in adjustments to revenues as follows:

(A) Increases in FTES shall result in an increase in revenues in the year of the increase and at the statewide average rate per FTES.

(B) Decreases in FTES shall result in a revenue reduction in the year following the decrease and at the district's average per FTES.

(C) Districts shall be entitled to restore any reductions in apportionment revenue due to decreases in FTES during the three years following the initial year of decreases in FTES if there is a subsequent increase in FTES.

(3) For student services, the workload measure shall be based on the numbers of credit students enrolled (headcount).

Changes in headcount shall result in adjustments to revenues as follows:

(A) Increases in headcount shall result in an increase in revenues in the year of the increase at the statewide average per headcount.

1 (B) Decreases in headcount shall result in a revenue reduction
2 in the year following the decrease at the district's average per
3 headcount.

4 (C) Districts shall be entitled to restore any reductions in
5 apportionment revenue due to decrease in headcount during the
6 three years following the initial year of decrease in headcount if
7 there is a subsequent increase in headcount.

8 (4) For maintenance and operations, the workload measure
9 shall be based on the number of square feet of owned or leased
10 facilities. Changes in the number of square feet shall be adjusted
11 as follows:

12 (A) Increases in the number of square feet shall result in an
13 increase in revenue in the year that the increase occurs and at the
14 average per square foot.

15 (B) Decreases in the number of square feet shall result in a
16 decrease in revenue beginning July 1 of the first full year in
17 which the square feet are no longer owned or leased and at the
18 average rate per square foot.

19 (5) For institutional support, a single fixed percentage which
20 shall apply to all districts shall be established based on the
21 pattern from the most recent data. The percentage shall be
22 obtained from statewide data by comparing expenditures for this
23 category with the total revenue for all five categories.

24 (d) Funding standards, subject to the conditions and criteria of
25 this section, shall be established by the board for the various
26 categories of operation established pursuant to subdivision (b). In
27 consultation as required by subdivision (e) of Section 70901, the
28 board of governors shall annually request program improvement
29 moneys to assist districts in meeting these standards.

30 (e) To the extent that funding is provided in the annual budget,
31 revenue adjustments shall be made to reflect cost changes, using
32 the same inflation adjustment as required for school districts
33 pursuant to subdivision (b) of Section 42238.1.

34 (f) An adjustment for economies of scale for districts and
35 colleges shall be provided.

36 (g) The statewide increase in workload of FTES and
37 headcount shall be, at a minimum, the rate of change of the adult
38 population as determined by the Department of Finance, and may
39 be increased through the budget process to reflect other factors,
40 including statewide priorities, the unemployment rate, and the

1 number of students graduating from California high schools. The
2 allocation of changes on a district-by-district basis shall be
3 determined by the board of governors.

4 (h) For fiscal year 1991–92 or on the date Section 84750 is
5 implemented by the board of governors in accordance with
6 Section 70 of Chapter 973 of the Statutes of 1988, whichever is
7 later, all districts shall receive at least the amount of revenue to
8 which they would have been entitled pursuant to Article 1
9 (commencing with Section 84700) of Chapter 5 of Part 50.
10 Thereafter, allocations shall be made pursuant to this section, as
11 implemented by the board of governors pursuant to the annual
12 State Budget.

13 (i) Except as specifically provided by statute, regulations of
14 the board of governors for determining and allocating the state
15 general apportionment to the community colleges may not
16 require district governing boards to expend the allocated
17 revenues in specified categories of operation or according to the
18 workload measures developed by the board of governors.

19 (j) As used in this section:

20 (1) “Criteria” means the definitions of elements of institutional
21 practice or activity to be included in the categories of operation
22 of community college districts.

23 (2) “Program improvement” means an increase in revenue
24 which is allocated to all districts to fund standards adopted
25 pursuant to subdivision (d). Program improvement also means an
26 increase in revenue allocated to low revenue districts to bring
27 them closer to the statewide average.

28 (3) “Standard” means the appropriate level of service in a
29 category of operation of the community college districts.

30 (k) This section shall remain in effect only until October 1,
31 2006, and as of that date is repealed, unless a later enacted
32 statute, that is enacted before October 1, 2006, deletes or extends
33 that date.

34 SEC. 2. Section 84750.5 is added to the Education Code, to
35 read:

36 84750.5. (a) The board of governors, in accordance with the
37 statewide requirements contained in paragraphs (1) to (11),
38 inclusive, of subdivision (d), and in consultation with
39 institutional representatives of the California Community
40 Colleges and statewide faculty and staff organizations, so as to

1 ensure their participation in the development and review of
2 policy proposals, shall develop criteria and standards for the
3 purposes of making the annual budget request for the California
4 Community Colleges to the Governor and the Legislature, and
5 for the purpose of allocating the state general apportionment
6 revenues.

7 (b) In developing the criteria and standards, the board of
8 governors shall utilize and strongly consider the
9 recommendations and work product of the “System Office
10 Recommendations Based on the Report of the Work Group on
11 Community College Finance” that was adopted by the board at
12 its meeting of March 7, 2005. The board shall complete the
13 development of these criteria and standards, accompanied by the
14 necessary procedures, processes, and formulas for utilizing its
15 criteria and standards, by March 1, 2007, and shall submit on or
16 before that date a report on these items to the Legislature and the
17 Governor.

18 (c) (1) It is the intent of the Legislature in enacting this
19 section to improve the equity and predictability of general
20 apportionment and growth funding for community college
21 districts in order that the districts may more readily plan and
22 implement instruction and related programs, more readily serve
23 students according to the policies of the state’s master plan for
24 higher education, and enhance the quality of instruction and
25 related services for students.

26 (2) It is the intent of the Legislature to determine the amounts
27 to be appropriated for the purposes of this section through the
28 annual Budget Act. Nothing in this section shall be construed as
29 limiting the authority either of the Governor to propose, or the
30 Legislature to approve, appropriations for California Community
31 Colleges programs or purposes.

32 (d) The board of governors shall develop the criteria and
33 standards within the following statewide minimum requirements:

34 (1) The calculations of each community college district’s
35 revenue level for each fiscal year shall be based on the level of
36 general apportionment revenues (state and local) the district
37 received for the prior year plus any amount attributed to a deficit
38 from the adopted standards to be developed pursuant to this
39 section, with revenue adjustments being made for increases or
40 decreases in full time equivalent students (FTES), for

1 equalization of funding per credit FTES, for necessary alignment
2 of funding per FTES between credit and noncredit programs, for
3 inflation, and for other purposes authorized by law.

4 (2) Commencing with the 2006–07 fiscal year, the funding
5 mechanism developed pursuant to this section shall recognize the
6 need for community college districts to receive an annual
7 allocation based on the number of colleges and comprehensive
8 centers in the district. In addition to this basic allocation, the
9 marginal amount of credit revenue allocated per FTES shall be
10 funded at a rate not less than four thousand three hundred
11 sixty-seven dollars (\$4,367), as adjusted for the change in the
12 cost-of-living in subsequent annual budget acts.

13 (A) To the extent that the Budget Act of 2006 contains an
14 appropriation of one hundred fifty-nine million four hundred
15 thirty-eight thousand dollars (\$159,438,000) for community
16 college equalization, the Legislature finds and declares that
17 community college equalization for credit FTES has been
18 effectively accomplished as of March 31, 2007.

19 (B) The chancellor shall develop criteria for the allocation of
20 one-time grants for those districts that would have qualified for
21 more equalization under prior law than pursuant to this section
22 and the Budget Act of 2006, and for those districts that would
23 have qualified for more funding under a proposed rural college
24 access grant than pursuant to this section and the Budget Act of
25 2006, as determined by the chancellor. Appropriations for the
26 one-time grants shall be provided pursuant to paragraph (24) of
27 subdivision (a) of Section 43 of Chapter 79 of the Statutes of
28 2006.

29 (3) Noncredit instruction shall be funded at a uniform rate of
30 two thousand six hundred twenty-six dollars (\$2,626) per FTES,
31 as adjusted for the change in the cost-of-living provided in
32 subsequent annual budget acts.

33 (4) Funding for instruction in career development and college
34 preparation, as authorized pursuant to Section 84760.5, shall be
35 provided as follows:

36 (A) Beginning in the 2006–07 fiscal year, career development
37 and college preparation FTES may be funded at a rate of three
38 thousand ninety-two dollars (\$3,092) per FTES for courses in
39 programs that conform to the requirements of Section 84760.5.

1 This rate shall be adjusted for the change in the cost-of-living or
2 as otherwise provided in subsequent annual budget acts.

3 (B) Changes in career development and college preparation
4 FTES shall result in adjustments to revenues as follows:

5 (i) Increases in career development and college preparation
6 FTES shall result in an increase in revenues in the year of the
7 increase and at the average rate per career development and
8 college preparation FTES, including any cost-of-living
9 adjustment authorized by statute or by the annual Budget Act.

10 (ii) Decreases in career development and college preparation
11 FTES shall result in a revenue reduction in the year following the
12 decrease and at the average rate per career development and
13 college preparation FTES.

14 (5) Except as otherwise provided by statute, current
15 categorical programs providing direct services to students,
16 including extended opportunity programs and services, and
17 disabled students programs and services, shall continue to be
18 funded separately through the annual Budget Act, and shall not
19 be assumed under the budget formula otherwise specified by this
20 section.

21 (6) For credit and noncredit instruction, changes in FTES shall
22 result in adjustments in district revenues as follows:

23 (A) Increases in FTES shall result in an increase in revenues in
24 the year of the increase and at the amount per FTES provided for
25 in paragraph (2) or (3), as appropriate, including any
26 cost-of-living adjustment authorized by statute or by the annual
27 Budget Act.

28 (B) Decreases in FTES shall result in revenue reductions
29 beginning in the year following the initial year of decrease in
30 FTES, and at the district's marginal funding per FTES.

31 (C) Districts shall be entitled to the restoration of any
32 reductions in apportionment revenue due to decreases in FTES
33 during the three years following the initial year of decrease in
34 FTES if there is a subsequent increase in FTES.

35 (7) Revenue adjustments shall be made to reflect cost changes,
36 using the same inflation adjustment as required for school
37 districts pursuant to subdivision (b) of Section 42238.1. These
38 revenue adjustments shall be made to the college and center basic
39 allocations, credit and noncredit FTES funding rates, and career
40 development and college preparation FTES funding rates.

(8) The statewide requested increase in budgeted workload FTES shall be based, at a minimum, on the sum of the following computations:

(A) Determination of an equally weighted average of the rate of change in the California population of persons between the ages of 19 and 24 and the rate of change in the California population of persons between the ages of 25 and 65, both as determined by the Department of Finance's Demographic Research Unit as determined for the preceding fiscal year.

(B) To the extent the California unemployment rate exceeds 5 percent for the most recently completed fiscal year, that positive difference shall be added to the rate computed in subparagraph (A). In no event shall that positive difference exceed 2 percent.

(C) The chancellor may also add to the amounts calculated pursuant to subparagraphs (A) and (B) the number of FTES in the areas of transfer, vocational education, and basic skills that were unfunded in the current fiscal year. For this purpose, the following computation shall be determined for each district, and a statewide total shall be calculated:

(i) Establish the base level of FTES earned in the prior fiscal year for transfer courses consisting of courses meeting the California State University breadth or Intersegmental General Education Transfer Curriculum requirements or major course prerequisites accepted by the University of California or the California State University.

(ii) Establish the base level of FTES earned in the prior fiscal year for vocational education courses consisting of courses defined by the chancellor's office Student Accountability Model codes A and B that are consistent with the courses used for measuring success in this program area under the accountability system established pursuant to Section 84754.5.

(iii) Establish the base level of FTES in the prior fiscal year for basic skills courses, both credit and noncredit.

(iv) Add the sum of FTES for clauses (i) to (iii), inclusive.

(v) Multiply the result of the calculation made under clause (iv) by one plus the district's funded growth rate in the current fiscal year. This figure shall represent the maintenance of effort level for the budget year.

(vi) FTES in transfer, vocational education, and basic skills that are in excess of the total calculated pursuant to clause (v),

1 shall be considered in excess of the maintenance of effort level,
2 and shall be eligible for overcap growth funding if the district
3 exceeds its overall funded FTES.

4 (vii) In no event shall the amount calculated pursuant to clause
5 (vi) exceed the total unfunded FTES for that fiscal year. To the
6 extent the computation specified in subdivision (c) requires the
7 reporting of additional data by community college districts, that
8 reporting shall be a condition of the receipt of ~~growth for~~
9 ~~apportionment~~ *apportionment for growth* pursuant to this section
10 and those funds shall be available to offset any and all costs of
11 providing the data.

12 (9) Except as provided in subparagraph (B) of paragraph (6),
13 for the 2006–07 fiscal year or for the first fiscal year for which
14 this section is implemented by the board of governors, whichever
15 is later, all districts shall receive at least the amount of revenue
16 received for the prior fiscal year, adjusted for the cost-of-living
17 adjustment specified in subdivision (b) of Section 42238.1 and
18 adjusted for the actual increase in FTES not to exceed the
19 district's funded growth cap. Thereafter, allocations shall be
20 made pursuant to this section, as implemented by the board of
21 governors pursuant to the annual Budget Act.

22 (10) Except as specifically provided in statute, regulations of
23 the board of governors for determining and allocating the state
24 general apportionment to the community college districts shall
25 not require district governing boards to expend the allocated
26 revenues in specified categories of operation or according to the
27 workload measures developed by the board of governors.

28 (e) This section shall become operative on October 1, 2006.

29 SEC. 3. Section 84760 of the Education Code is amended to
30 read:

31 84760. Notwithstanding any other provision of law:

32 (a) (1) Equalization funds appropriated in the annual Budget
33 Act shall be allocated to districts in accordance with this section.
34 These funds shall not be allocated to any district whose total
35 local property taxes and student fee revenues exceed the revenue
36 limit for that district under program-based funding, unless the
37 district's funded per-credit full-time equivalent students (FTES)
38 revenue derived from these revenue sources falls below the 90th
39 percentile in funding per-credit FTES for comparably sized
40 districts, as defined in subdivision (b).

1 (2) Funds shall be allocated by the chancellor within 30 days
2 of enactment of the annual Budget Act.

3 (b) For purposes of distributing funds, the chancellor shall
4 define districts as either large, medium, or small, in accordance
5 with all of the following:

6 (1) A district is large if its total of funded credit FTES exceeds
7 6,250, based on the 2003–04 second principal apportionment, as
8 modified for any subsequent growth adjustments.

9 (2) A district is medium if its total of funded credit FTES
10 exceeds 4,000 but does not exceed 6,250, based on the 2003–04
11 second principal apportionment, as modified for any subsequent
12 growth adjustments.

13 (3) A district is small if its total of funded credit FTES does
14 not exceed 4,000 FTES, based on the 2003–04 second principal
15 apportionment, as modified for any subsequent growth
16 adjustments.

17 (c) (1) The chancellor shall compute an equalization
18 adjustment for each applicable large community college district,
19 so that no district's 2003–04 fiscal year base funding per credit
20 FTES is less than the 2003–04 fiscal year base funding per credit
21 FTES above which fall not less than 10 percent of the total
22 statewide funded credit FTES for large districts.

23 (2) The chancellor shall compute an equalization adjustment
24 for each applicable medium district, so that base funding per
25 credit FTES is not less than the base funding per credit FTES
26 equalization target determined for large districts under paragraph
27 (1), multiplied by 1.03. This 3-percent adjustment for the
28 medium district equalization target is intended to reasonably
29 recognize diseconomies of scale for these districts.

30 (3) The chancellor shall compute an equalization adjustment
31 for each applicable small community college district, so that base
32 funding per credit FTES is not less than the base funding per
33 credit FTES equalization target determined for large districts in
34 paragraph (1), multiplied by 1.10. This 10 percent adjustment for
35 the small district equalization target is intended to reasonably
36 recognize diseconomies of scale for small districts, and
37 approximates the difference in targets utilized by the state for
38 elementary and secondary unified school district equalization
39 allocations.

(d) The chancellor shall calculate the total equalization funding necessary to bring all districts up to the target funding per FTES levels determined pursuant to subdivision (c), and shall prepare a simulation of the allocations to each eligible district in this situation.

(e) If the amount appropriated for equalization in the annual Budget Act is less than the amount identified pursuant to subdivision (d), the chancellor shall prorate available equalization funding for each eligible district in proportion to the amount of funds necessary to fully fund those districts.

(f) The chancellor may promulgate regulations on an emergency basis to the extent necessary to complete the adoption of regulations to implement this section within the 2004–05 fiscal year.

(g) The chancellor shall provide a report by October 1, 2004, to the Joint Legislative Budget Committee, the appropriate policy and fiscal committees in each house of the Legislature, the Department of Finance, and the Legislative Analyst specifying the total calculated equalization cost for each eligible district as well as the prorated allocation provided to each eligible district in the 2004–05 fiscal year. The report shall include an evaluation of options and recommendations for revising allocation practices for funds available in subsequent years through restorations in workload, growth funding, and cost-of-living adjustments that further the objective of equalizing funding, consistent with the methodology in this section. The report shall also specify any regulatory and statutory changes necessary to effect the recommendations in future fiscal years.

(h) This section shall remain in effect only until October 1, 2006, and as of that date is repealed, unless a later enacted statute, that is enacted before October 1, 2006, deletes or extends that date.

SEC. 4. Section 84760.5 is added to the Education Code, to read:

84760.5. (a) For purposes of this chapter, the following career development and college preparation courses and classes for which no credit is given, and that are offered in a sequence of courses leading to a certificate of completion, that lead to improved employability or job placement opportunities, or to a certificate of competency in a recognized career field by

1 articulating with college-level coursework, completion of an
2 associate of arts degree, or for transfer to a four-year degree
3 program, shall be eligible for funding subject to subdivision (b):

4 (1) Classes and courses in elementary and secondary basic
5 skills.

6 (2) Classes and courses for ~~immigrants~~ *students*, eligible for
7 educational services in workforce preparation classes, in the
8 basic skills of speaking, listening, reading, writing, mathematics,
9 decisionmaking, and problem solving skills that are necessary to
10 participate in job-specific technical training.

11 (3) Short-term vocational programs with high employment
12 potential, as determined by the chancellor in consultation with
13 the Employment Development Department utilizing job demand
14 data provided by that department.

15 (4) *Classes and courses in English-as-a-second language and*
16 *vocational English-as-a-second language.*

17 (b) The board of governors shall adopt criteria and standards
18 for the identification of career development and college
19 preparation courses and the eligibility of these courses for
20 funding, including the definition of courses eligible for funding
21 pursuant to subdivision (a). The criteria and standards shall be
22 based on recommendations from the chancellor, the statewide
23 academic senate, and the statewide association of chief
24 instructional officers. The career and college preparation courses
25 to be identified for this higher rate of funding should include
26 suitable courses that meet one or more of the qualifications
27 described in subdivision (a).

28 (c) A district that offers courses described in subdivision (a),
29 but that is not eligible for funding under subdivision (b), shall be
30 eligible for funding under Section 84757.

31 (d) The chancellor, in consultation with the Department of
32 Finance and the Office of the Legislative Analyst, shall develop
33 specific outcome measures for career development and college
34 preparation courses for incorporation into the annual report
35 required by subdivision (b) of Section 84754.5.

36 (e) The chancellor shall prepare and submit to the Department
37 of Finance and the Legislature, on or before March 1, 2007, and
38 March 1 of each year thereafter, a report that details, at a
39 minimum, the following:

1 (1) The amount of FTES claimed by each community college
2 district for career development and college preparation courses
3 and classes.

4 (2) The specific certificate programs and course titles of career
5 development and college preparation courses and classes
6 receiving additional funding pursuant to this section, as well as
7 the number of those courses and classes receiving additional
8 funding.

9 *SEC. 5. This act is an urgency statute necessary for the*
10 *immediate preservation of the public peace, health, or safety*
11 *within the meaning of Article IV of the Constitution and shall go*
12 *into immediate effect. The facts constituting the necessity are:*

13 *In order to allocate funds appropriated in the Budget Act of*
14 *2006 to community college districts for the 2006–07 academic*
15 *year, which has already commenced, in a manner that is*
16 *consistent with the community college funding reforms made by*
17 *this act, and in order for the districts to incorporate these*
18 *allocations, as soon as is feasible, into their operating budgets, it*
19 *is necessary that this act take effect immediately.*
